Table of contents

Table of contents	7
Chapter 1 Introduction	9
Scope of thesis	75
Chapter 2 Online screening of homogeneous catalyst performance using reaction detection mass spectrometry	79
Chapter 3 High-throughput reaction optimization and activity screening of ferrocene-based Lewis acid-catalyst complexes by using continuous-flow reaction detection mass spectrometry	101
Chapter 4 Tandem mass spectrometry of silver-adducted ferrocenyl catalyst complexes.	135
Chapter 5 Optimization of information content in a mass spectrometry based flow-chemistry system by investigating different ionization approaches.	171
Conclusions and perspectives	199
Summary	205
Samenvatting	213
List of publications	223
Dankwoord	225
